

FEATURES

Providing 100mm of suspension lift and an increase of 350-450Kg GVM across the entire Hiace and Commuter range, the 2WD lift kit is a cost effective solution perfectly suited to trade and tour vehicles.

BENEFITS

Designed from the exclusive EnduroCo 4x4 conversion, the 2WD lift was made for applications where 4x4 vehicles were not required; however, a requirement for an increase in suspension and body lift was needed.

OPTIONS

From a complete mine-spec built personnel transport solution, an emergency service vehicle or as a truly capable offroad tourer; EnduroCo provides a a host a optional additions to suit your application.
